

OSaplex™ Supports Total Bone Health and Strength*

 Available in
60 packets

OSaplex™ is a comprehensive, convenient, and cost-effective dietary supplement that supports healthy bones, cartilage, and ligaments. Each packet provides the following: two capsules containing a combination of microcrystalline hydroxyapatite concentrate (MCHC) and vitamin D3, along with one capsule of choline-stabilized orthosilicic acid (ch-OSA®).*

Bone is composed of a calcium-based mineral complex and an organic material known as collagen. A somewhat flexible and fibrous protein, collagen appears to be a key factor in a bone's ability to withstand sudden impact. The quantity and health of collagen determines the bone's "toughness," while the mineral content determines its strength and stiffness.*

OSaplex contains choline-stabilized orthosilicic acid, a well-absorbed form of silicon that has been clinically tested. Silicon-dependent enzymes link together single chains of amino acids to synthesize collagen fibers. The surfaces of these collagen fibers act as the binding sites for the MCHC. The more surface area available to the MCHC to bind to, the more flexible the bone.*

MCHC, a proprietary, standardized, safe, bovine-sourced bone extract from New Zealand, contains a crystalline calcium and phosphorus matrix in the ideal physiological ratio of 2:1, plus bioactive growth factors and type I collagen. As a source of calcium, MCHC contributes to the production and maintenance of bone structure, a function supported by vitamin D3. Amino acids, glycosaminoglycans, and a broad range of essential trace elements are also present.*

Combining ch-OSA and MCHC with vitamin D3 results in a unique package that addresses quantity and quality of bone, and supports overall bone strength and health.*

PanXyme pH™

Acid-Resistant, Non-Animal Derived Digestive Enzymes

Available in 90 capsules
and 180 capsules

PanXyme pH™ is a blend of digestive enzymes derived from the fermentation action of fungi such as *Aspergillus niger* and *Rhizopus niveus*, microorganisms safely used in fermenting foods, including cheese, soy sauce, and yogurt. These non-animal derived enzymes support the assimilation of nutrients in foods and the digestion of proteins, carbohydrates, fats, and vegetable matter. Clinical trials suggest that PanXyme pH is effective across a broad spectrum of pH ranges.*

PepciX™

Supports Gastric Health*

Available in
60 tablets

PepciX™ is a zinc-carnosine complex consisting of elemental zinc as well as L-carnosine, a naturally occurring dipeptide (beta-alanine and L-histidine) found in muscle and brain tissue. More than 40 human and animal studies have demonstrated PepciX safely and effectively supports the stomach's own natural cell-protective mechanisms without interfering in the normal digestive process.*

PhosphaLine™

100% Pure Polyenylphosphatidylcholine Concentrate

Available in 100 softgels
and 300 softgels

PhosphaLine™ provides 2.7 g of pure polyenylphosphatidylcholine (PPC) per serving plus the highest concentrated source of 1,2 DLPC (dilinoleoylphosphatidylcholine). Unlike most other phosphatidylcholine products on the market, PhosphaLine contains no other phospholipids, aside from PPC and DLPC, that may compete for absorption. Studies suggest that PPC ingestion increases choline levels in the blood and brain and supports acetylcholine synthesis for healthy neuronal and cell function. Daily supplementation of PPC may help maintain healthy brain and liver function, healthy cholesterol levels already within the normal range, and gastric mucosal protection. PPC is widely used to support healthy aging.*

Because we care about every detail. From careful selection of research-based strains to in-depth vetting of vendors; from using highly effective delivery methods to employing the best protective packaging; from careful handling in a climate-controlled environment to final assaying to verify purity and stability and even beyond to gathering patient outcome data—we care about the details.*

We consult with experts and we scour the most current research to find specific strains proven to be beneficial and effective for targeted support.*

We strive to maximize absorption in the small intestine by using special capsules that resist strong stomach acids that would otherwise destroy the organisms.*

We use science-based, clinically relevant, high-count, colony-forming units (CFUs) to support maximum effectiveness, and we guarantee count to expiration.*

ProbioMax® 350 DF

High-Dose, Multi-Strain Probiotic

 Available in
15 stick packs

ProbioMax® 350 DF features a diverse blend of HOWARU® and FloraFIT® probiotic strains to support a healthy gut microbiome. Each strain is well-researched and identity-verified and has been genetically characterized and properly classified for your safety and assurance. These strains were not only selected for their health benefits and complementary actions but also for their viability and stability.*

With the 18 different strains of health-promoting bacteria provided in ProbioMax 350 DF, the impact on multiple body systems and functions—such as on immunity, digestion, metabolism, and cytokine production—is maximized because different strains have slightly different functions and are concentrated in various places along the digestive tract. Using a variety of strains also mimics a healthy diet that includes foods containing live and active bacterial cultures, such as fermented foods.*

To protect the bacteria from light and moisture, each flavoring- and sweetener-free serving of ProbioMax 350 DF comes in an opaque, foil-lined stick pack.

ProbioMax® Daily DF

30 Billion CFU Probiotic

Available in 30 capsules and 60 capsules

ProbioMax® Daily DF is a vegetarian, dairy- and gluten-free, four-strain probiotic totaling 30 billion CFU† per capsule. Each vegetarian capsule is sealed in nitrogen-purged aluminum blister packs to serve

as protection from factors proven to compromise stability of probiotics such as heat, moisture, and oxygen. ProbioMax Daily DF provides four researched strains of beneficial bacteria, including the extensively studied HN019® strain of *Bifidobacterium lactis*. These live microorganisms have proven health benefits and well-established safety, and have been tested for epithelial cell adhesion and/or resistance to low pH.*

To further support resistance to low pH and the delivery of microorganisms to the small intestines, XYMOGEN employs DRcaps™ gastro-resistant capsules. These specially designed, innovative capsules help slow exposure of actives to stomach acid and ensure more targeted release.*

Probiotic Mechanisms of Action

ProbioMax® IG 26 DF

Systemic Health Support via Gut Health*

Available in
120 capsules

ProbioMax® IG 26 DF features clinically validated ingredients to support microbiome wellness and overall immune health. LactoSpore® (*Bacillus coagulans* MTCC5856) is a unique strain of shelf-stable L (+) lactic acid-producing bacteria with a naturally protective spore coating. In addition to its research-supported role in promoting healthy bacterial balance in the gut, this strain has been studied for its effects on maintaining blood lipid levels already within a healthy range and its effect on vaginal health. IG 26 DF (IgY Max™), hyperimmunized egg powder, provides immunoglobulins and immune cofactors to support the body's natural defenses by limiting non-beneficial microbial adhesion.*

RegeneMax® Liquid Advanced Collagen Generator®**

Available in
1 fluid ounce (30 mL)

RegeneMax® provides ch-OSA® (choline-stabilized orthosilicic acid), that helps naturally nourish your body's beauty proteins.† Regular orthosilicic acid is highly unstable, leading it to form polymers. These polymers are too large for the human body to absorb. But the patented "choline stabilization" technology in RegeneMax prevents the polymers from forming, ensuring optimal absorption. RegeneMax has been formulated with clinically proven ch-OSA® for your assurance.*

RegeneMax® Plus Advanced Collagen Generator®**

Available in 60 capsules
and 120 capsules

RegeneMax® Plus features clinically tested ch-OSA® (choline-stabilized orthosilicic acid) complemented with biotin. ch-OSA naturally helps nourish your body's beauty proteins by supporting and activating enzymes used by collagen-generating cells to make collagen. Regular orthosilicic acid (OSA) has to be stabilized to avoid polymerization, a process that decreases bioavailability. ch-OSA's patented choline-stabilization technology prevents polymers from forming and ensures OSA's optimal absorption. By combining ch-OSA with biotin, RegeneMax Plus offers an even greater level of beauty support.*

SAM-e

THE Methyl Donor*

Available in
30 acid-resistant vegetarian capsules

SAMe (S-adenosyl-L-methionine) is a molecule that is naturally formed in the body. SAMe is a methyl donor in a process essential to normal cell health and function known as methylation. The methylation process can decline with age or as a result of chronic alcohol consumption, and it can be limited by genetic defects.*

SAMe contributes to the synthesis, activation, and metabolism of neurotransmitters, proteins, nucleic acids, phospholipids, hormones, and some drugs. It supports glutathione production, liver health, joint comfort, and a healthy mood.*

Gnosis' Adomix® contains a minimum of 70% of the SS isomer of SAMe, the form the body can use most readily. This relatively high concentration makes **SAM-e** cost-effective. Each capsule is sealed in a nitrogen-purged blister pack to maximize protection from the environment.*

SAMe & TMG

Methyl Donors*

Available in
30 stick packs

SAMe & TMG is a sweet, yet slightly tart lemon-flavored powder. SAMe (S-adenosyl-L-methionine) and TMG (trimethylglycine) are naturally occurring substances that act as methyl donors during vital biochemical processes in the body. Methylation is essential to normal cell health and function. It can decline with age or chronic alcohol consumption, and it can be limited in some individuals due to their genetic makeup.*

SynovX[®] Metabolic
Joint Support for Overweight Patients*

Available in 30 capsules
and 60 capsules

SynovX[®] Metabolic is a cutting-edge option for those in need of joint support related to excess body fat. Exciting, new research shows that fat cells send messages (via leptin and other signaling molecules) to joint tissue cells. These messages can trigger a cascade of events that damage the health and integrity of joints. SynovX Metabolic works by changing the “communication” between these cells, resulting in a more naturally healthy joint environment that can help you stay comfortable and be active.*

VegaPro™ Proprietary Vegan Protein Complex

 Available in
14 servings

VegaPro™ is a sugar-free source of unadulterated vegetable protein sourced from non-GMO peas and rice, providing 17 grams of high-quality protein in every scoop. This flexible formula can be mixed with pure water or any beverage approved by your practitioner. Because it does not provide additional micronutrients, it can easily be added to any functional food formula, when additional protein is desired; or micronutrients can be mixed with VegaPro in accordance with recommendations by your practitioner. VegaPro is an excellent choice of supplementary protein for those who are sensitive to gluten; sugars, including lactose; sweeteners; or flavorings. Furthermore, the use of pea and rice proteins in VegaPro avoids major food allergens including milk, egg, soy, and wheat.

XymoZyme® Acid-Resistant, Vegan-Suitable, Digestive Enzymes*

 Available in 60 capsules
and 120 capsules

XymoZyme® is a cost-effective, non-prescription, broad-spectrum, digestive enzyme formula suitable for vegans and designed to support the digestion of fat, protein, carbohydrate, fiber, and lactose. This comprehensive formula contains lipase, proteases, alpha-galactosidase, hemicellulase, papain, lactase, and other key digestive enzymes. XymoZyme works in a wide pH range—unlike porcine pancreatin, which works in a narrow pH range.*
